

# Enabling organizations to operate with their full data potential, anytime and anywhere.

Adopting the Cloud has a steep learning curve and has to be considered a marathon rather than a sprint. Achieving a successful Cloud Adoption journey requires more than just a sound IT organization.

**MobiLab – the fastest Cloud Adoption company** – delivers you the best end-2-end experience for your Cloud journey by aligning all processes, systems, and people for a successful Cloud Adoption.

## Cloud Adoption by MobiLab

MobiLab is the Cloud Adoption specialist for migrating your on-premise workloads to the Cloud and supports in becoming a Cloud Native organization. Our proven best practices and blueprints from different small-scale to large-scale enterprise projects guarantee you a swift Cloud Adoption journey.

**MobiLab's Cloud Acceleration program enables you...**

-  **Steering the organization toward the Cloud and applying the correct change management measures**
-  **Keeping in check the organizational costs as well as having a good overview of cost evolution in the Cloud**
-  **Complying with all IT relevant policies and mapping those as well as extending those to the Cloud**
-  **Defining the guardrails and policies for the innovation departments to deploy Cloud resources with infrastructure-as-code**
-  **Minimize Cloud Adoption downtime and track resource inconsistencies**

## Cloud Migration Iteratively

MobiLab is the Cloud Adoption specialist for migrating your on-premise workloads to the Cloud and supports you in becoming a Cloud Native organization. Our proven best practices and blueprints from different small-scale to large-scale enterprise projects guarantee you a swift Cloud Adoption journey.

## Cloud Upskilling

Absorbing the full potential of the Cloud requires your staff to be upskilled from on-premise to the Cloud. MobiLab offers customized training programs for your staff and enables you to fully operate the Cloud. If there is a need, we can also fully take care of the Cloud operation as a managed service provider.

### Cloud Advantages

-  Reduction of CAPEX and better cost controlling
-  Reduction of downtimes and better IT stability with improved SLAs
-  Up- and down-scaling the infrastructure per market demand
-  Increasing organizational as well as IT flexibility
-  Development of new technical capabilities and possibilities
-  Deployment of self-service environments for the innovation department

### What our customers say

“Effective cloud adoption is a crucial step for LANXESS to achieve our strategic goals. With MobiLab, we were able to lay down the governance needed for us to make this step with confidence. MobiLab was then able to execute a very quick and cost-effective migration of critical workloads demonstrating their end-to-end expertise in the cloud adoption journey.”

— Jan Scharpwinkel,  
Head of Enterprise  
Architecture

“MobiLab has proven time and again to be customer-centric and focused on fast & value-driven delivery. MobiLab is our preferred solution partner in Cloud Adoption as they help us achieve our mission to empower every person and every organization on the planet to achieve more.”

— Melanie Weber,  
Industry Executive
