# Maximize the Value of Your IT

**MobiLab supports you on your entire Cloud Adoption journey:** from an in-depth analysis of workloads in your datacenters, calculating the business case and setting up a Cloud Strategy, building the foundational Cloud Architecture, and defining Cloud Governance policies, to a successful Cloud Migration and Cloud Operations.

**MobiLab is the Cloud Adoption specialist for migrating your on-prem workloads to the Cloud and supports you in becoming a Cloud Native organization.** Our experienced team designs and implements the best Cloud Adoption strategy, aligning processes, systems, and people for maximum impact. Our proven best practices and blueprints from 100+ small-scale to large-scale enterprise projects guarantee you a swift Cloud Adoption journey.

## MobiLab's Cloud Acceleration Program

Steer your organization toward the Cloud and apply the correct change management measures:

- ✦ Keep the **organizational costs** in check while maintaining a continuous overview into the **evolution of your Cloud spend**
- ✦ Comply with all **IT relevant policies** and map those as well as extending those to the Cloud
- ✦ Define the guardrails and policies for the innovation departments to **deploy Cloud resources** with infrastructure-as-code
- ✦ **Minimize Cloud Adoption downtime** and track resource inconsistencies
- ✦ **Increase your Cloud Security** by leveraging in-built security services within Azure and MobiLab's Security Operations Center

## Key Advantages of the Cloud

- Reduction of CAPEX and better cost controlling
- Reduction of downtimes and better IT stability with improved SLAs
- Up- and down-scaling the infrastructure per market demand
- Increasing organizational as well as IT flexibility
- Development of new technical capabilities and possibilities
- Deployment of self-service environments for the innovation department

## Iterative Cloud Migration

MobiLab's operation mode is to adopt the Cloud in an iterative way but still follow a well-structured forward plan to maximize the insights throughout the complete project life-cycle and minimize possible risks. By parallelizing different work streams (Cloud Foundation & Cloud Migration) we can guarantee a fast and cost-effective way to unleash the full potential of the Cloud.

## Cloud Upskilling

Leveraging the full potential of the Cloud requires your staff to be upskilled from on-prem to the Cloud. From empowering your teams through customized training to fully managing your Cloud Operations, MobiLab delivers exactly the level of support you need.

## What Our Customers Say

**Christoph Schneider | Merz Pharma**  
Head of Global IT Services & Infrastructure

"MobiLab played a crucial role in making Merz Pharma's Cloud Adoption journey a great success. The entire process from on-premises to the Cloud was completed within a few months, marked by a trustworthy and seamless collaboration.

Following a comprehensive Cloud Assessment and the crafting of a solid, GxP-qualified Cloud Foundation, MobiLab managed the entire migration process of our workloads in the best possible way. They also supported us by implementing FinOps and empowering our teams.

Merz Pharma benefits from enhanced security, better cost transparency, and increased flexibility in deploying further Cloud services."

**KNORR-BREMSE**

**Bernhard Panzer | Knorr-Bremse**  
VP Knorr-Bremse Technology Platform

"MobiLab has been an invaluable partner in Knorr-Bremse's seamless transition to the cloud.

Their guidance from crafting our cloud strategy and outlining the business benefits to establishing the cloud infrastructure and migrating workloads to Azure was instrumental.

Their approach, deeply rooted in metrics and backed by extensive expertise in both cloud technologies and intricate on-premises infrastructures, has been exemplary.

MobiLab's commitment and proficiency have greatly supported our successful cloud adoption journey."

# Software-Defined Cloud Integration by MobiLab Solutions

Microsoft  
Partner of the  
Year Awards
